- Integrated third-party APIs to support business processes
- Led and coordinated the development team
- Shipped new features aimed at improving user engagement
- Diagnosed and resolved bugs and technical issues
- Conducted code reviews and managed version control using GitHub
- Tuned database performance and optimized backend processing

Toko Kopi Tuku (PHP, Laravel Octane, Filament, MySQL, Github)

- Built and maintained scalable backend services for frontend integration
- Created a CMS platform for efficient content management
- Implemented new features to enhance the user experience
- Conducted system maintenance to ensure stability and uptime
- Fine-tuned backend operations and optimized database performance

Samuel Tumbuh Bersama (PHP, Laravel Octane, Filament, PostgreSQL, Github)

- Engineered robust backend services supporting frontend operations
- Developed a CMS for content editors and administrators
- Introduced feature enhancements to improve usability

- Performed maintenance and monitoring for consistent performance
- Refined queries and backend logic to maximize efficiency

Back End Developer

09/2024 - 10/2024

Storikka (Freelance) ↗

Sasa ADHDtion Website (Laravel Octane, Filament, Mysql, Github, Nginx)

- Monitored and ensured consistent website availability
- Configured server infrastructure for frontend, backend, and database layers
- Developed robust backend services for client-facing applications
- Created a CMS for content publishing and management

Full Stack Developer

05/2023 - 08/2023

PT Mixtra Inti Tekindo ↗

E-Commerce Dashboard (Laravel, MySQL, Github)

- Reviewed code and provided feedback to enhance quality standards
- Built and connected frontend components to backend services
- Debugged and fixed technical issues in development and production
- Ensured system reliability through scheduled maintenance
- Improved backend processes and database operations

Full Stack Developer

07/2022 - 02/2023

PT Guitekno Tresna Telekomunikasi

Middleware Dashboard for Kemendagri (Laravel, Express.js, Oracle SQL, Github)

- Developed middleware APIs for government data integration
- Linked APIs between Kemendagri and Local Government Banks
- Resolved application-level bugs and performance issues
- Conducted regular system maintenance for uptime assurance
- Improved SQL query performance and server-side logic

Teamkeyword Project (Laravel, Codeigniter 3, PostgreSQL, Github)

- Designed and implemented website UI/UX
- Maintained application health and availability
- Investigated and fixed reported bugs
- Conducted performance tuning and system optimization
- Maintained backend efficiency and database integrity

Back End Developer

08/2021 - 02/2022

PT Citiasia Internasional (Internship)

Blanjaloka (Laravel, Lumen, PostgreSQL, Github)

- Built backend services to support frontend features
- Developed CMS tools for internal content workflows
- Integrated Midtrans for secure payment processing

EDUCATION

Information System

2018 - 2024

Nusa Mandiri University - Bachelor of Science

Software Engineering

2015 - 2018

SMKN 1 DEPOK - High School Diploma

CERTIFICATES

React.js Front End Development
Sanbercode

2023 - Present

Laravel Web Developemnt
Sanbercode

2021 - Present

SKILLS

Laravel	Expert	Vue.js	Basic
Express.js	Intermediate	MySQL	Expert
Next.js	Intermediate	PostgreSQL	Intermediate
React.js	Intermediate	Oracle SQL	Basic
Angular.js	Basic	Nginx	Intermediate
Tailwind CSS	Intermediate
